

BENEFITS FROM WHF TWINNING AND TEACHING PROGRAMS, OUR EXPERIENCE

Authors: Vivero G; Montenegro, Y; Vásquez

Hematology – Oncology Department - Specialized Hematology Laboratory
Hospital del Niño, Panamá

SUMMARY

Participation of our diagnostic Center: Specialized Hematology Laboratory - Hospital del Niño, in a Twinning Program of the WHF and Educational Programs brought significant benefits in the development and improvement of the diagnosis of congenital and acquired coagulopathies. This participation brought benefits to our center and other institutions. In this paper we present the staffs participation in such programs and the improvements obtained during the past 10 years.

METHODS

PERSONAL TRAINING AND UPDATE

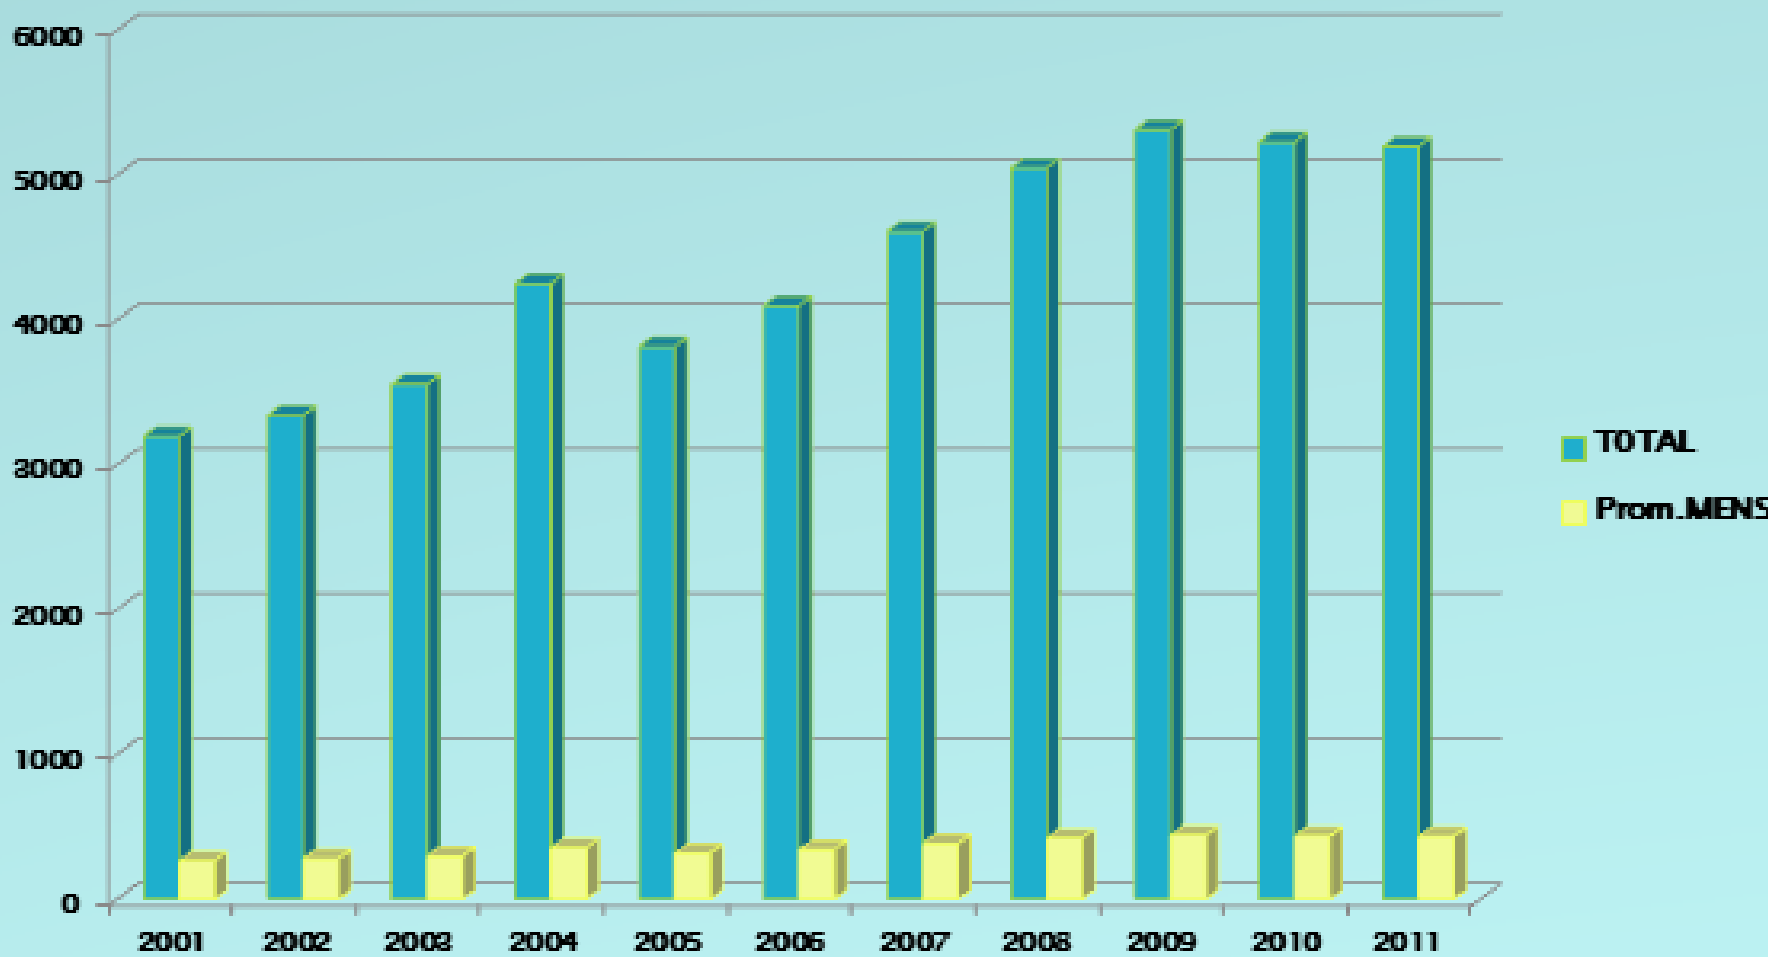

- Congenital Coagulopathies Unit, Hospital-University La Fe, Valencia (2002, 2004)
- Coagulation Atelier in San Jose Costa Rica, UCR-FMH (2003, 2005)
- Congenital Coagulopathies National and International Multidisciplinary Seminars and Ateliers

METHODOLOGIES' MODERNIZATION 2001-2011

TOTAL OF ATTENDED PATIENTS BY YEAR 2001-2011

Improvements after trainings:

- TP, TTP, FACTORIZATION
- INHIBITORS
- FVW-Ag
- CoRi
- PLATELET FUNCTION TEST
- QUALITY CONTROL
- SAMPLES EXTRACTION AND CONSERVATION
- POLIMORFISMS FVIII (In standarization)

RESULTS

The participation of the staff in the WHF'sTwinning Program, allowed

- The training and actualization in the diagnose for coagulopathies
- In the improvement of the utilized techniques in the laboratory
- The training of technical staff of primary attention centers..
- It allowed us the access to the WHF's IEQAS extreme quality program
- The creation of actualization seminars with national and foreign exposers
- Increased attention due to the modernization of the laboratory

CONCLUSIONS

- WHF give opportunity trough Educational Twinning Program .
- This Program are invaluable by the benefited Centers and the patients.
- These programs benefit the health staff, patients and the community.
- Maintain the update each year with other activities.
- The most important is that each benefit Center give this knowledge to other national Centers, country and health personal.
